Jeremy Johnson
SIGSAM Chair

What is SIGSAM?

Since 1967 SIGSAM has been the largest international organization representing, promoting and supporting the computer algebra and symbolic computation scientific communities.

Our scope encompasses the design, analysis and implementation of algorithms and systems for symbolic and algebraic computation and their application to problems of science and broader society.

SIGSAM Regularly:

- Publishes the Communications in Computer Algebra
- Sponsors conferences (such as ISSAC)
- Publishes and archives in the ACM DL ISSAC proceedings
- Sponsors, funds, and nominates for awards
- Informs members on computer algebra activities and events
- Anything to support the computer algebra community
